Dr. G. A. Traylor Dead.

Dr. G. A. Traylor, a well-known physician of Bryantsville, died very suddenly at an early hour this morning at the home of Arnie Naylor, near that city, where he had been summoned to make a professional call. Dr. Traylor had just arrived at the house, and, feeling somewhat exhausted, sat down in a chair to rest. He sank to the floor almost immediately and expired without uttering a word. He had been a resident of Bryantsville for the past four years, coming to that place from Columbia, Adair county. He was the Bryantsville correspondent for the Kentucky Advocate, and was a very estimable man. His remains were sent to Adair county where he has a brother living. He was sixty-five years of age, and had never married.—Danville Advocate.

"Dr. Traylor had many friends in this, his home county, and he showed his love and appreciation by his many visits. His brother, Mr. J. M. Traylor, resides on the old home place and had his remains placed to rest in the family burying ground, last Friday." His death must have been from heart trouble judging from the above statement. We tender our sympathy to his immediate relations who were unprepared for such a sad message.

It will be a very commodious edifice and will add greatly to the appearance of the town. The lot upon which the building is to be erected was donated by Mr. D. Wilson, and it is a beautiful site. The pews, carpets, chandelier, organ and pulpit will be given by the board. There are quite a number of Baptists at Russell Springs and in the vicinity, and we are glad they will soon have a church in which to worship.

Mr. Robt. G. Phelps, one of the oldest and most respected citizens of Cumberland county, died, at his home, on the 6th of March. He was near 75 years of age; was a devoted member of the M. E. COMPLIMENTARY.

PRESIDIO, OF S. F. CAL., FEB. 23, '04. G. W. ROBERTSON, COLUMBIA, KY.

MY DEAR SIR: I have the honor to acknowledge the receipt of your letter of the 16th inst., and am glad to be able to tell you that your son, F. M. Robertson, is in very good health and doing well as a soldier. It takes time to learn the many duties of a soldier in a battery of Field Artillery, but Allen, Hurt and your son have taken hold in the right way. They are manly young fellows, willing and attentive, attend well to their duties and do not try to shirk, and seem to have plenty of self respect—and with those qualities, I hope that we can make of them soldiers that you and I may both be proud.

Very respt., JOHN L. HAYDEN, Capt. Art. Corps.

The above letter shows that the aforesaid young men are making their mark in the estimation of their officers. They are all young men of fine sense and plenty of courage and we predict will rise above the rank and file of common soldiers. The information complimentary to their deportment and progress is gratifying to their many friends in this part of the country. Success to you, boys. Make a record for yourselves and Adair county.

SQUIRE J. B. SIMMONS DEAD.

The intelligence of the death of this excellent citizen was received at Columbia last Sunday morning. The end came Saturday night at his late residence near Breeding.

He was a man of sterling character and had served his district as magistrate, making a splendid officer. He was upright in all his transactions and was a kind and sympathetic neighbor. He was a victim of dropsy and had been a sufferer for quite a while. He was 71 years old, and will be greatly missed by his family and friends.

The Legislature has materially changed the present system of County Boards of Health. The Bourne bill provides for a county board of health composed of five members, three members appointed by the State Board, one by the County Judge in each county, and the other by the fiscal court. Each County Board is empowered to choose from its number a secretary who by virtue of his position shall be termed the "County Health Officer." His duties are not confined exclusively to the secretaryship, but the investigation of all matters which are likely to prove detrimental to the public health, upon him. Of the County Board he is the only one who shall receive a salary, and the amount is fixed by the Fiscal Court of the county. The Legislators think this sort of board will save the State much money and place the counties in better position to combat contagious diseases. At present the county boards are directed by the State Board, and in case where the State Board takes charge of a small-population situation in a county the expense frequently assumes enormous proportions.
